UKGB Limited

Summary

This is our plan as we build new ideas with easy access to different companies and projects

Problems we are solving or opportunities we are going after

As the world becomes increasingly we should make the different into our company and forever in the outside companies projects

Support from investors and partners will to achieve this goal

A strong engineering into our management technique was critical to make a success company like us.

How will achieving this goal have a great impact?

With mobile flexibility, we can expect to grow our users by 200%.

At present, 85% of our users rely on desktop wish to make and show presentations using their devices.

How will we know we have achieved this goal? How do we know if we are successful?

By the middle of the year, our number of users should increase by 250,000.

This key metric is based on the behavior that users satisfied with the product will likely recruit 2.5 new users.

Challenges we're anticipating

The scope of work might change mid-way, but that is okay.

Changes are inevitable, and this could potentially push back the target dates of our goals.

**TOTAL SAFETY FOR YOUR INVESTMENT WITH A PROGRAM CREATED IN YOU
MEASURE FOR YOUR DREAM TO BECOME REALITY.**

UKGB Limited

UKGB Limited

**Launch industry's first
collaboration feature**

**The way we work has changed significantly, making the
ability to collaborate in real-time even more necessary
and to be more productive**

Problems we are solving or opportunities we are going after

Launch industry's first collaboration feature

The distance among teams should not be a hindrance to productivity.

With the ability to collaborate in real-time, teams can make incredible presentations no matter where they are in the world.

Foundational engineering support is here and available.

All we need is a set of fantastic layouts to show off the collaboration feature. Coupled with engaging marketing efforts, we can deliver collaboration features in the hands of our users at the soonest time possible.

UKGB Limited

Support we need to achieve this goal

Launch industry's first collaboration feature

We're projecting that this strategy can help us achieve our second primary company goal.

By launching the collaboration feature, we're expecting a rise in revenue by 250%.

We should be able to achieve 1/2 of our target revenue by the third quarter of the year.

This is based on the trend that satisfied users are likely to refer us to 5 to 7 of their friends or people they work with.

Build a product accessible on all devices

People - employees, students, educators, life coaches - are limited in presenting information.

A strong engineering foundation is critical as we make a presentation platform accessible on all devices.

With mobile flexibility, we can expect to grow our users by 200%.

By the middle of the year, our number of users should increase by 250,000.000

Grow a community of empowered presenters

Our support center is backed up, and our support website is still currently in the works.

We need our satisfied users' enthusiasm in empowering fellow users of our product.

A harmonious and supportive community is the backbone of any successful product.

We should grow our community by 100% on all our social media groups by the end of the year.
